

Miami-Dade County League of Cities Legislative Action Days Highlights

MDCLC President Jon Burgess (Florida League of Cities Board Member) along with Executive Director Richard Kuper, MDCLC Past President Isaac Salver (Florida League of Cities Board Member), Councilman Joshua Fuller, Town of Bay Harbor Islands, Councilman Seth Salver, Village of Bal Harbour, Councilman Anthony DeFillipo, City of North Miami Beach, and Mayor David Coviello, Village of Biscayne Park attended the Florida League of Cities Legislative Action Days in Tallahassee. We attended briefings with the Florida League staff members and meetings with members of the Miami-Dade Delegation. We want to thank the Florida League of Cities for working with us and all the local regional leagues in an effort to protect and advocate for the interests of all municipalities.

Please remember that it is important to contact your Senators and Representatives on issues that affect our Cities, Towns, and Villages. Each of you should have received the MDCLC 2015 Legislative Action Agenda as well as the FLC Legislative Agenda. Attached are the FLC League Priorities and bills filed that will give you information on items that you should be aware of. If you need additional information consult your municipal lobbyist and also feel free to contact our office or the Florida League office. The Legislative session moves at a fast pace and we need to communicate with our legislators to advocate on our issues.

As always, thank you for your involvement and participation.
